STEALTH TURNOUT GEAR

Stealth™ turnout gear is built to move with you. The ergonomic design and athletic fit support unrestricted movement while delivering trusted fireground protection.

STYLE ST32

TWO-TONE PBI MODEL SHOWN

UNRESTRICTED MOVEMENT

Climb, crawl, and reach without gear holding you back.

Lightweight Comfort

Less bulk means less fatigue.

Fireground Performance

Secure fit that stays put during aggressive work.

Trusted Lakeland Protection

Built tough without sacrificing mobility.

STEALTH COAT WITH LAZERMAX™

CUTTING EDGE

The Stealth™ is light years ahead of the competition and has been proven on the fire grounds and on the Firefighter Challenge course. Lightweight and maneuverable, the Stealth™ comes loaded with all the standard features you need, plus more!

FEATURES

- Beveled Hem, 29" Front, 35" Back, graded to size
- YKK Zipper/Velcro Closure
- NYC Style Lime/Yellow 3M™ Scotchlite™ Reflective Material for enhanced visibility - Double Stitched
- Ergonomic Pleated Back/Shoulders
- Easy Grip™ DRD
- Internal Outer Shell Draw Cord to reduce bulk
- Napoleon Pocket under Storm Flap
- Low Profile 3" Collar with Hanger Loop
- Set-In Pleated Ergonomically Curved Sleeves
- 7" Black Nomex® Wristers
- 5" Deep Black Stedprene Sleeve Wells
- Black Stedshield Coat Cuff Reinforcements - Double Stitched
- 2" x 3.5" x 8" Radio Pocket with Velcro® Antenna Opening on each side of Flap
- Self Mic Strap above Radio Pocket
- Universal Flashlight Holder
- 2" x 8" x 8" Coat Expansion Pockets with Handwarmer and Pull-Tabs on Flap
- Liner Inspection Velcro® Opening
- LazerMax™ Trim

Set in sleeves distribute the weight of the coat evenly over the shoulders, while contour cut gives greater freedom of movement.

Internal Draw-cord back reduces bulk in the front of the coat when donning an SCBA.

Long, beveled back provides additional overlap for protection. Add letters for identification too!

STEALTH PANTS WITH LAZERMAX™

PREMIUM QUALITY

Stealth pants include cutting-edge design elements that focus on comfort, functionality and ergonomics. Exactly what you would expect in a premium set of gear. Continuing the design style of the coat, Stealth pants are beveled cut with a lowered front and a slightly raised back.

3M Scotchlite
Reflective Material

Kevlar. Nomex.

ERGONOMIC DESIGN

We set out to develop an ergonomically designed system that prevents suspenders from slipping off the shoulders while ensuring maximum comfort. The result is Black-Ops™—a thoughtfully engineered solution that stays securely in place. Try them on and experience how comfortable well-designed suspenders can be.

FEATURES

- Beveled Waist Design – Low front with slight rise towards rear
- Pant Closure: 2" Wide Black Kevlar® Belt with Belt Loop/Handle Grips, Snap and Velcro® Fly Closure
- Single Lower Leg Panel with center rear seam – no side seams exposed to abrasion
- 2" x 10" x 10" Pant Expansion Pocket with pocket pull-tabs, lined with Kevlar® Twill
- Black Stedshield Double Padded Knees with Side Kick Extension Panel
- Black Stedshield Pant Cuff Reinforcements – Double Stitched
- Lime/Yellow 3M™ Scotchlite™ Reflective Material for enhanced visibility – Double Stitched
- Reverse Boot Cut
- Black-Ops Multi Adjust Suspenders
- LazerMax™ Trim

LAKELAND
FIRE + SAFETY

WHY CHAMPIONS CHOOSE STEALTH

Proven on the Course. Trusted on the Fireground.

Designed for speed, mobility, and comfort, Stealth delivers immediate performance—because seconds count on the course and on the fireground.

WHEN SECONDS MATTER

On the course, every movement is measured. On the fireground, every second counts. Your gear should never slow you down.

ATHLETIC FIT. IMMEDIATE COMFORT.

A modern athletic cut delivers mobility and comfort from day one—no break-in period required.

BUILT TO MOVE

Reduced bulk and enhanced range of motion help you move freely and work efficiently in every situation.

PERFORMANCE YOU CAN FEEL

From the first wear to the most demanding conditions, Stealth is built to perform when it matters most.

"Stealth checks all the boxes for me—fit, comfort, and mobility. It's what I wear racing on the course, and it's the same gear worn on the fireground—no difference."

— Michael Greene, Firefighter Challenge 2025 World Champion
